### The Telltale

#### Tick of Time

Everything in its season holds good throughout nature.

This is the season for Snipes and Killdeer and they have returned to us once more.

They have long legs for wading into the water in quest of food, and this is a wise provision.

But this Killdeer type of Horse and Mule so numerous in this section, cannot take their food from the water, and their owners are growing very tired supplying it from the crib.

The demand now is for horses and mules with heavy bodies and short, strong legs. The Percheron cross that we give you will cut the legs off and add two or three hundred pounds to the body, and give a kind work disposition. "Bit Chewing," "Tail Switching," and "Earth Pawing" is not in our kind. Come and see for yourself.

But everything in its season as we said in the outset—and according to that this is

### Corn Planting Time

If you have trouble in getting a first-class stand of corn and making 60 bushels per acre, perhaps we can help you out. It's no trouble if you have reasonably good land, prepare it well and cultivate intelligently.

It's the good seed that we want to speak of here, for selling seed corn is a part of our business.

Only one variety on the farm, "Boone County White." And it's bound to be good, for every single ear is tested by "Holdens" test method that insures a strong germ and makes the plant in the hill equal strength so that they come up and go on to maturity together. Hence the increased yield per acre.

Planted right, replanting and thinning is almost dispensed with. We have two disinterested and competent men in charge of our seed corn department. They must protect our reputation, and hence are bound to serve you honestly.

\$2.50 per bushel—no charge for bags. Figure it. One bushel of tested seed plants two acres more than untested seed. Saves cost of replanting and thinning, increases the yield from 5 to 15 bushels per acre over untested seed, and is satisfactory every time you look at the crop. We can fill hurry orders.

Cold water, a little hard—less than with ordinary flour—and a hot stove is all you need to make the finest of bread out of Perfection Self Rising Flour. It will save you 20 per cent on your bread bill. Try it.

### Cure for Stomach Disorders.

Disorders of the stomach may be avoided by the use of Chamberlain's Tablets. Many remarkable cures have been effected by these tablets. Sold by All Dealers.

Loved Honour More.  
A clever little English girl, who insisted that she might spell "honour" so, loved she not "honour" more, had fallen among Americans and was being quizzed by her companions about her manner of spelling that good word and others like it.

"And do you spell 'behaviour' with the U?" she was asked.  
"Oh, yes," she replied. "My mother would not think it was good behaviour to spell it without the U."

### English Contests in London.

It is interesting to compare the Englishman's idea of what a motor car should stand up under with that of an American. The English have got a great deal of pleasure out of the racing held at the Brighton track. Recently they have taken up a new form of motor car endurance. The Royal Automobile club of England recently held what they call "A non-stop, high-speed contest" through the crowded streets of London. A wire was received from the London dealer of the Palge car that the entire run was made in a Palge car without being penalized a single point.

Cures Old Sores, Other Remedies Won't Cure  
The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

His Drawback.  
"It is a wonder that a shoemaker ever succeeds in getting on in the world."  
"Why not?"  
"Because his first work is apt to be his last."
